

### **Gibson Technology Ltd**

We use Hy-Green floor cleaner at our state-of-the-art, hi-tech motorsport facility in Repton, Derbyshire, where we need to remove a variety of floor soils ranging from rubber to dust to oil and metalworking fluids as part and parcel of our everyday work.

Hy-Green leaves a dry, non-slip, pristine finish to our painted floor which is very important to us because we have many visitors and our facilities are our showroom.

We would recommend Hy-Green.

Mr D James

General Manager
